Working with Dr. Barb and engaging in the bootcamp has been by far one of the best experiences of my life. I opened my practice with patients on the books, covered my overhead in a week and have been profitable ever since. The ongoing support, endless ideas, and trainings have been pivotal for continuing the grow my practice. The tribe is like a family and everyone is so personable and helpful.

As a sport doc, many practice management companies push you to get your patients in and out which is not congruent to how I practice. The best part about the bootcamp is that I am allowed to spend as much time as I need to with my patients and not pushed to see a certain volume of patients because that is what someone said you had to be able to see to make a living.

The past 5 months I have replaced my husbands income, continued to grow my practice (with a waiting list), and paid off \$40k in business and student loans.

The bootcamp was one of the best decisions I have made in my life!

Dr. Barb and her bootcamp are the best! I purchased my own practice almost a year ago and I wish I would have started the bootcamp sooner. If you are a student, new to practice, or need some help figuring out your next step do NOT hesitate to join. She has so many great resources, and is continually adding to them, not to mention you are a part of a tribe for a lifetime. Dr. Barb honestly cares about your practice success and more importantly you! I loved the bootcamp so much when she had an opening for coaching I jumped on it. I love what the bootcamp has done for me, it has made practice more exciting and I can't wait to grow even more! Reach out to her, you won't regret it.

Joining Dr. Barbara Eaton's 56 day chiropractic boot camp to double your business is the best decision I have ever made for my practice. She genuinely wants to see you succeed. You will never just be another number in a practice management group. You are joining a family! And just when I think it can't get any better, boom she adds another lesson to make you successful, not only in practice, but in life.

This bootcamp has been so pivotal in my business and personal life. I love the support from Barbara and all the other bootcampers. It is truly a family that wants to see everyone succeed and goes out of their way to share ideas and give advice. The dropbox is an amazing tool that all of the bootcampers share their own paperwork, marketing materials, presentations and research in so you don't have to reinvent the wheel and you can always be doing something new in your office. Dr. Barb is always adding new content and new experts in all different fields. It is called the 56 day bootcamp but with the constant addition of material and videos it is sooo much more than just 56 days of info and thank goodness its a lifetime membership cause there will never be a day when I don't need my tribe!

On the off chance she doesn't know the answer to an inquiry, she reaches out to other experts to get the answer. She is caring & passionate, and gives a ton of tools to really boost your practice. I'm so grateful for her support!

Dr. Barbara is so inspiring!! I completely resonate with her no nonsense approach to growth. Unlike previous coaching programs I've been in, she is HAND'S ON and PASSIONATE about helping chiropractor's become successful!! I just had no idea what action steps are necessary for growth and Dr. Barbara lays it ALL out STEP BY STEP...nuts and bolts!! Wow!! Action steps have become like a simple connect the dots drawing! But more than all of that she has created a FAMILY! I've felt alone in practice for many years and now I've found a HOME! A family of people who really care! Thank you Dr. Barbara for being our mama and creating this program!!
